Commodity Calculator

Available to help plan out your commodity dollars for the school year.

Independent Drawdown

Get more out of your commodity dollars

Key Benefits:

Take a discount on white & dark blended chicken productions when you do not have both white & dark meat chicken commodity pounds available

Gives you the ability to better balance your white & dark meat chicken commodity pounds

Maximizes your commodity dollars to provide you with more servings

How It Works:

Place an order for commodity-eligible product that contains both white & dark meat chicken

Order goes through K12Foodservice.com to verify commodity pounds are available in your account

ONE OF FOUR THINGS WILL HAPPEN DEPENDING ON WHAT POUNDS ARE AVAILABLE:

1. = $$ **WHITE & DARK** AVAILABLE — PTV discount dollars given for **BOTH***
2. = $ **ONLY WHITE** AVAILABLE — PTV discount dollars given for **WHITE***
3. = $ **ONLY DARK** AVAILABLE — PTV discount dollars given for **DARK***
4. = ✕ **NONE** AVAILABLE — **NO** PTV discount dollars given*

*White and dark commodity pounds and PTVs(Pass Through Values) are separated out on the SEPDS for products containing both White and Dark meat chicken. Commodity pounds are drawn down from account when the PTV discount is applied.

MENU MIMICKERS

Students today taste the world before they ever reach your serving line — and their expectations come to school with them. That's an opportunity. When restaurant-inspired flavors show up on your menu, the café becomes somewhere students want to be, and mealtime turns into a highlight of the day. Bringing familiar favorites to K-12 menus does more than raise participation numbers; it builds trust in school meals and helps keeps students coming back for the nourishment they need to thrive.
