Whole Carrots & Onions, Fully

We do not recommend heating from a frozen state. Thaw product in original bag in refrigerator for 72 hours (3 days) prior to use. Preheat oven to 325°. For au jus, drain juice and place product on a rack. Heat until simmering. Place product on a rack, covered with approximately 1/2" of au jus. Tent foil over the product to reach an internal temperature of 135°F. If product is to be carved, place product under a heat lamp and carved to order, internal temperature should be maintained for the duration of the event. Product should not be under a heat lamp for longer than 4 hours even while it is under a heat lamp. Replacement product ready for your carving. INSTRUCTIONS: Preheat oven to 225°F and heat product in original cooking bag for approximately 3 hours. Note: higher than 1000W. If using the microwave, place portion of thawed meat on a plate and heat on low to medium power setting until heated.
